Preferred Clinician: Dr. Amy Hope Dr. Zahida Oakley Dr. Fleur Creeper

Referred by: _____

Practice: _____

Date: _____

WHY HAVE I BEEN REFERRED?

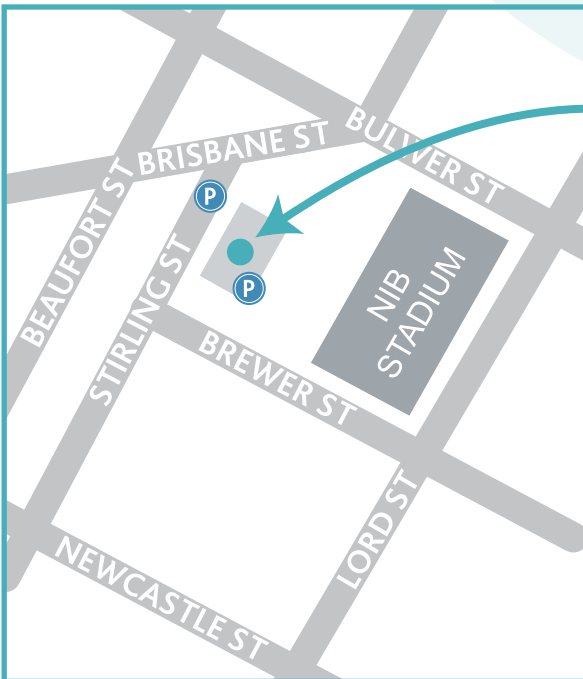

Your dentist has concerns for your health and has requested a specialist to investigate a problem that you, or they are having with your periodontal tissues.

The periodontal tissues are the structures that surround your teeth (gum, ligament and bone).

A periodontist is a specialist dentist that works with these structures. They have a knowledge of the diseases of these tissues and understand how the disease affects your body and how best to return it to a healthy state.

For more information please see our website.
